

### **DONALD R. GRIMES**

Donald R. Grimes received his master's degree in Economics from the University of Michigan. He is a senior research specialist at the University of Michigan's Institute for Research on Labor, Employment, and the Economy, where he is assistant director of the Center for Labor Market Research. His primary research interests are in labor economics and economic forecasting.

For thirty years, he has been engaged in economic forecasting for state and local governments and is frequently called upon for policy advice. He has worked for many years with the Michigan departments of Commerce and Treasury and the Michigan Economic Development Corporation on policy analysis and evaluating economic strategies. He is co-

director of a project to generate long-term economic and demographic projections for all of the counties of Michigan. His current research includes an analysis of Michigan's five-year transportation program, as well as an economic outlook study for Sarasota County, Florida. Other recent research includes a study looking at Michigan's industrial structure with a view to identifying sectors that will promote economic growth in the future. He has been involved in research projects sponsored by the U.S. Department of Commerce, the U.S. Department of Labor, the Federal Reserve Bank of Chicago, and the Robert Wood Johnson Foundation.

He recently co-authored a paper, "Change in the Concentration of Employment in Computer Services: Spatial Estimation at the U.S. Metro County Level" (*Growth and Change*, March 2007). He also co-authored a chapter on the location of technology firms in *Michigan at the Millennium*.
